

# DIP6, DC Input, Random-Phase Photo TRIAC Coupler

#### **Description**

The TD301X, TD302X and TD305X series combine an AlGaAs infrared emitting diode as the emitter which is optically coupled to a monolithic silicon random-phase photo triac in a plastic DIP6 package with different lead forming options. With the robust coplanar double mold structure, TD301X, TD302X and TD305X series provide the most stable isolation feature.

#### **Features**

- High isolation 5000 VRMS
- DC input with random-phase photo triac output
- Operating temperature range 40 °C to 100 °C
- REACH & RoHS compliance
- MSL class 1
- Regulatory Approvals
  - UL UL1577
  - VDE EN60747-5-5(VDE0884-5)
  - CQC GB4943.1, GB8898
  - cUL- CSA Component Acceptance
     Service Notice No. 5A

#### **Applications**

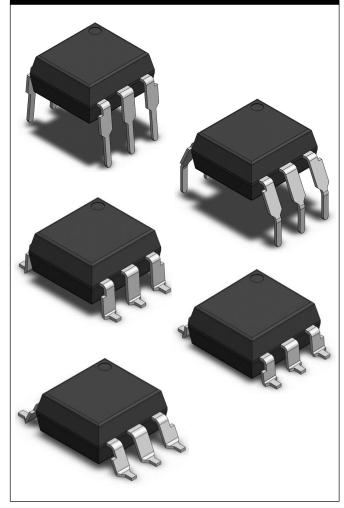

- Solenoid/valve controls
- Lighting controls
- Motor controls
- Temperature controls
- Static AC power switches
- Solid state relays
- Interfacing microprocessors to 115 to 240VAC peripherals

# SCHEMATIC 6

#### **PIN DEFINITION**

- 1. Anode
- 4. Terminal
- 2. Cathode
- 5. Substrate
- 3. NC
- 6. Terminal

#### **PACKAGE OUTLINE**

# TD301X,TD302X,TD305X Series

# DIP6, DC Input, Random-Phase Photo TRIAC Coupler

ABSOLUTE MAXIMUM RATINGS

#### **DISCLAIMER**

- LIGHTNING is continually improving the quality, reliability, function and design. LIGHTNING reserves the right to make changes without further notices.
- The characteristic curves shown in this datasheet are representing typical performance which are not guaranteed.
- LIGHTNING makes no warranty, representation or guarantee regarding the suitability of the products
  for any particular purpose or the continuing production of any product. To the maximum extent
  permitted by applicable law, LIGHTNING disclaims (a) any and all liability arising out of the
  application or use of any product, (b) any and all liability, including without limitation special,
  consequential or incidental damages, and (c) any and all implied warranties, including warranties of
  fitness for particular
- The products shown in this publication are designed for the general use in electronic applications such as office automation, equipment, communications devices, audio/visual equipment, electrical application and instrumentation purpose, non-infringement and merchantability.
- This product is not intended to be used for military, aircraft, automotive, medical, life sustaining or lifesaving applications or any other application which can result in human injury or death.
- Please contact LIGHTNING sales agent for special application request.
- Immerge unit's body in solder paste is not recommended.
- Parameters provided in datasheets may vary in different applications and performance may vary
  over time. All operating parameters, including typical parameters, must be validated in each
  customer application by the customer's technical experts. Product specifications do not expand or
  otherwise modify LIGHTNING's terms and conditions of purchase, including but not limited to the
  warranty expressed therein.
- Discoloration might be occurred on the package surface after soldering, reflow or long-time use. It neither impacts the performance nor reliability.
